Custom PCD >	5H-98 ~ 120.65	5H-98 ~ 130	5H-112 ~ 120.65

Standard Color: Feinheit Silver II (FS2), Matte Black (MBL), Matte Bronze (GMB)

Custom Colors: Available, please inquire for options.

Custom Anodized Barrel Finishes: Shiny or Matte Bronze Anodized, Shiny or Matte Black Anodized

Includes: Valve stem (V41C) & Spoke Decal

Center Cap: Optional / Sold Separately (Type A: PCD x98~110 / Type B: PCD x112~120.65)

Sizing chart notes:

- The offset range is set in 1mm increments. Example: A BIG CALIPER (R-DISK) 19x9.5 is available in a +48 offset through a -32 (negative 32) offset. Therefore, available offsets for that spec are a +48, +47, +46...through a -30, -31, -32.
- The number in () is the lip size (also known as rim depth). Example: A 19x9.5 +63 (45mm) means the offset is a +63 with a lip size of 45mm.
- Available center disk types (in order from most brake clearance to least brake clearance) : Big Caliper (R-Disk), Standard (A-Disk), Deep Rim (O-Disk). Please check with us if you are unsure what center disk is required for your vehicle's brake system.
- If you have any question regarding wheel fitment for your vehicle, please contact us directly via email sales@workwheelsusa.com). Please include your vehicle's year/make/model and current brake system (OE or aftermarket).
